BURNER'S WHITE SULPHUR SPRINGS, WHITE SOLPHOK SPRINGS,
POWELL'S PORT, MENANDOAH COUNTY, VA.
THE proprietors of these Springs are prepared to receive and accommodate visiters. This delighting Watering place is situated eight miles east of Woodstock, between the Fort and Mansanutten Mountains. The new Building (one hundred teet in length,) commenced last season, has been completed, and is ready for the reception of Families, have been erected convenient to the boarding apartment. These SPRINGS consist of WHITE, BLUE and BLACE These SPRINGS consist of White, Block and Black Sulpher, Chalaysearre, Limbertone and Slate, all having their fountains within a circumference of thirty yardsitie work of Nature's own labratory. They send forth a sufficient quantity of pure water to supply many thousands of persons daily. They are situated in a flat, or rather basin, the ground gradually rising to the south and east until it teaches the western base of the Mansanutten, from which is presented to the eye of the beholder one of the most enchanting landscape views in the country. To the south, south-east, and east, there are a number of mounds, rising up at distances of from 25 to 100 yards, and from \$25 to 100 gards, and \$25 to 100 gards, and \$25 to 100 gards, and \$25 to 100 gards.

CHARLIE WRIGHT, Proprietor.

CHARLIE WRIGHT, south, south-east, and east, there are a number of mounds, rising up at distances of from 25 to 100 yards, and from 25 to 100 feet above the level bottom in front and to the north-west of the Springs. Many of these elevations can be approached from the east or rear, by a gentle ascent. The Fort Mountain, with its picturesque scenery, its jutting spurs, its deep ravines, and its lotty peaks, presents a panorama, which, for bold outline and pleasing variety, is a unaurpassed by any mountain scenery in Virginia. Indeed, the scenery presented to view from the summits of the Maneanutten and Fort Mountains, embracing the Page and Warren and Shenapdoah Valleys, must be seen to be supreclated.

In addition to the Springs proper, there are a number of others in the vicinity, the principal of which are: 1. The celebrated Mountain Spring, 150 yards distant; 2. The Cold Spring, a short distance from this; 3 Innmediately above is a Chalybeate, sending forth a limpid atream; 4. To the south from the Springs, about three quarters of a mile, gushing from the mountain side, is the Sweet Chalybeate Spring. The new Spring recently opened amid the beautiful group of withows that shade the Sulphinr Springs, and which is betieved to possess peculiar medicinal qualities, completes the tist. Visiters coming from the North or East, can enter the picturesque valley through the narrow passage formed by the proximity or he mountains, about twelve miles to the north cast from he Springs. The rugged grandeur of this natural defile, the tocks towering to the very clouds, satirles the traveller with awe and admiration.

On arriving at the Springs, the invalid has at once withdrawn from the cares and perplexities, toils and monotony of the busy world, and may recuperate his exhausted energies by quaffing the pure waters that incessantly flow around him, and partaking of the rich viands that are daily prepared for the neurishment of his trail body.

We will state, for the benefit of those who may not be aware of the fact, that we own a large farm attached to the Springs, whose persons can have their horses pastured to stabled as they may prefer. every profession, and more particularly to those who are destrous of qualitying themselves for mercantile and business pursuits. This department is now conducted by P. R. FIRE PROOF SAFES.

THE character of these Safes, in St. Louis, was before so well-established, that any further test or proof of the fact of their being superior to all others, would have been unnecessary; but in order to accommodate Mr. Hall, heatentee and maker of "Hall's Patent Concrete Safes," which has burnt up all other makes of any note in the United States, (Wilder's patent included,) we took up his challenge and the result is given below by the Committee who superintended the burning of the Safes. We only regret that they were not left in the furnaces two hours longer.

The Safe which we tested is to be seen at our Store, and we invite the public to call and examine it as we feel confident that no one will ever doubt their fire proof qualities after having seen the specimen which passed through the fiery ordeal on the 16th of June.

The undersigned, a committee appointed by E. Hall, on behalt of Hall, Dodd & Co., of Cincinnati, and Messra. R. R. Violett & Co., as agents of Messra. Burke, Barnes & Co. Pittaburg, to test the fire proof qualities of the safes made by their respective principals—report, that we have that day subjected a Safe of each manufacture, of similar size, which had been in use two years, in overa to a fire made with dry oak wood, and Pittaburg stone-coal, for the space of five and a half bours, and during that time we believe the heat applied was far greater than that in any ordinary conflagration—that at the expiration of that time, on taking the safes from the furnece, and cooling them down, we found to be true casting on both was in places entirely burnt off, but that the books and papers entirely uninjured, except slightly by the water used in cooling off.—This we found to be the case with both safes, and the only perceptible difference in the appearance of the Interior was that the variath on the wood work of Burke & Barnes' safe was entirely uninjured, while that on Hall, Dodd & Co.\*s, was blistered and blackmed. In conclusion, we would remark, that from the result of this test, we have no heaftation in recommending the safes of both parties to the confidence of the public.

Let all who wish to purge the blood from impurities, and prepare the system to resist epedemics, resort to "Guysott" Extract of Vellow Dock and Sarsaparilla," which is proving itself an antidote for many of the most rula gnant diseases that flesh is heir to, and they will never be disappointed, for in this reneaby the yubit faith has never wavered—never can waver; for it is founded on experience, just at their want of faith in other and spurious compounds is founded on experience. They fly from mineral nostrume to seek hope, life and vigor from this parely regetable reneap, nowever broken down in health and spirits—however loather owne to himself and others, let no one despair of recovery; let the patient only understand that his hope of restoration lies only in "Guysott's Extract of Yellow Does and Sarsaparilla," and persuade him, for his life's sake, to try it, and we have no hesitation in predicting his speed; 19—Independence 1257.

The Shaker prepared "Yellow Dock," and the "Red Honduras Sarsaparilla," are the invaluable sciencelia agents from which Dr. Guysott's Improved Extract of Yellow Bock and Sarsaparilla is formed, and Laboratory of Dr. Guysott has given us the virtues of these roots in their perfection. His preparation contains all the restorative properties of the roots, combined and concentrated in their utmost strength and efficacy.

Experiments were made in the manufacture of this medicine until it was found that it could not be further improved. Accordingly, we find it resorted to almost universally in cares of Hepatic, Scorbutic and Cutaneous complaints for general prostration of all the vital powers, and all those tormenting diseases of the skin so trying to the patience and so injustious to the health.

The following case of Henajah Hughes is one of the most astonishing on record. After forty years' sickness, two years' excruciating torture, the amputation of oneleg, and the body and limbs almost a mass of eating, patrifying, discharging ulcers, to be cured by eight bottles of Guysott's Extract of Yellow Dock and Sarsaparilla, is almost miraculous.

I have been afficied for forty years with irruptions on my lega and feet; in 1848 they got so bad that had to go on crutches, and in 1849 I had one leg amputated above to kine. In about 9 months after my other leg broke out in large eating and running sores from my kine to my foot, and discharged a great deal of offensive matter, and at the same time my left hand broke out in large running sores

Bear Sir.—As I consider that my life has been greatly prolonged by my being cured of Consumption by the use of "Dr. Wistar's Balsam of Wild Cherry." I will state the symptoms of my case, that others similarly afflicted may be induced to try this invaluable remedy. I experienced great difficulty in breathing; had the hectic fever with violent flushes of heat and frequent cold chills, with severe pain in my side and breast accompanied by a very bad cough; was very restiess at nights, and had great night aweats, perspiring, I should say, at least two gallons a night, wetting the bed completely through. I had not been able to work for scars. But I was much emaciated, and almost helplens when I commenced using Wistar's Halvam or Wild Cherry. I have used in all 13 bottles, had I am now free from all those complaints, for my health is good.

I am now 65 years old, and have not taken any of the Balsam since 1846, because my health is so good as not to require any medicines. But I I should have any return of my former symptoms, I should use Wistar's Halsam of Wild Cherry. I procured the medicine of Mesars. Fall & McCracken, your agents in Lancaster, Olio.

## READ THE CERTIFICATE

Dr. Guysott—Dear Sir:—1 send this to certify to you that your Extract of Veliow Dock and Sarsaparilla has performed one of the most wonderful cures on me that has ever been affected on man.

I have been afflicted for forty years with irruptions on Blackwood's Edinburgh Magazine, (Tory.)
These Reprints have now been in successful operation in
this country for the nety years, and their circulation is constantly on the line case notwithstanding the competition
they encounter from A merican periodicals of a similar class
and from numerous Eclectrics and Magazines made up of
selections from foreign periodicals. This fact shows clearly
the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are
established on a firm basis, and will be continued without
interruption.

same time in the large of the last two years I cannot describe to you; I was in such agony that I he ver rested day or night. I was given up to die, and by the help of God I had made preparation for death, and had pointed out to my family the place where to bury my re-

neigh of God I man made preparation to the control mains.

In October last my gon brought me one of your bottle-wrappers; I read it, and found record of some wonderful cures performed by your "Extract of Yellow Bock and Sarsaparilla." I sent and got two bottles of it, and commenced taking it. In two weeks to my great astonishment, my sores all become casy, and I could sleep all night, a thing I had not done for two years. When I had taken six bottles, my sores had nearly all healed. My sores got well as if by enchantment. I have now used in all eight bottles of your "Extract of Yellow Dock and Sarsaparilla," and I now consider myself well. I am at a loss for terms to bet forth the worth of this medicine, or to express my gratitude for what it has done for me. I must call it the Savior of man from misery while iiving upon earth. I entreat all of the afflicted to try this medicine, for I believe it will cure any known disease in the world.—Lay aside all picludices and just try it, and prociatim its great worth to suffering mankind and entreat them to take it, for it will cure them.

My case is well enown in a large portion of South Carolina, Georgia and Alsabams, and If any should doubt the above cure, I invite them to 'call on me, and I will show themsthe scars. I can be found in Tallar cosa Co., Alabama one mile from Stoc's Ferry.

AMERICAN WHIG REVIEW

AMERICAN WHIG REVIEW

In the original Prospectus of the American Review, its used at Washington by Mr. Colton, his former Progretor and Ecifor, a number of the leading Whig Members the Twenty-seventh Congress (1945-6) subscribed their mames to the following resolution:—

"Garnestly approving the plan of such a National organism of the Congress of the Congress of the Compunications as may be necessary to set forth and detend the doctrines of the United Whig Party of the Union Signed by George P. Marsh, Daniel D. Barnatd, J. Mc. Pherson Herrien, R. R. Ingersoll, E. Joy Morris, T.L. Clingman, Daniel Webster, R. C. Winthrop, Thomas Buller King, Hamilton Fish, J. P. Kennedy, Wm. S. Archer, Rudis Choate, Alexander H. Stephens.

An engraved portrait of some distinguished person will be found in every number of the Review. They will usually be portraits of living American Statesmen, and whenever that is possible, will be accompanied with an authentic Memotr of the person represented.

The first objects of the Review are, of course politicall it is designed to set forth and defend the principles, the measurers, and the men of the United White Perty of the Union. It has been a matter of just reproach to that Party that though it embraces its due proportion of the intelligence and learning of the country, it has no districtly of Monthly Organ devoted to the expression and desans of its opinions and measures. The conductors of the American Review have done what in them lies to remove this reproach, by securing contributions from sources of shilly and truth.

The literary department of the Review, will agree in spirit with the political.
